Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to show a longitudinally coupled multi-mode piezoelectric filter with excitation electrodes which are subdivided into input, output and ground electrodes and which is comprised of a stack of piezoelectric elements with the electrodes between parts of the stack connected to the input, output and ground electrodes, and where the polarization of the piezoelectric layers may be all perpendicular to the direction of extension of the electrodes or may all be parallel to the direction the extension of the electrodes. electrodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry concerning this action to Examiner Dougherty at (703) 308-1628.
